"We got Mayson's lenses in her frames today and they ROCK!!! ... they fit her so nice and they seem to be comfortable on her so she isn't taking them off! She is actually looking through the lenses and not OVER them!!!" - A. Fledge

"They look FANTASTIC! So thank you, thank you for designing such a clever frame." -L. Peterson, Australia

Specs4us has designed a frame specially formatted to fit individuals with Down Syndrome and other people with low bridges. With a pair of *Erin's World Frames* your child will no longer be uncomfortable in their eye glasses. They will be able to explore the world freely and clearly without wearing glasses that are too big or are constantly slipping down their nose. These frames are made with your child's unique needs in mind and solve the problems that regular eyeglasses never could.

Are You Tired of Your Child's Glasses...

So uncomfortable they won't wear them?

Looking too big?

Slipping?

*"As for Ezrie,
she's walked into a
whole new world.
She's happier, she's
more hyper (oie!),
and she's babbling
more... Books are
more interesting
now, and she has
advanced according
to her therapists,
suddenly, as if
over-night. I watched
her flip completely
upside down and
then back up, and
her glasses didn't
budge from her face.
Transitioning her
into wearing these
glasses was easy...*

ALL THANKS

TO YOU!!!"

- L. O'Neil
